

Title of Course: Analysis of Changes - 2020 NEC

Course Syllabus: This is an extensive and popular program analyzing the major changes to the *Code* for this cycle. Members of the twenty NEC code-making panels contributed to the development of the authoritative text. This seminar covers more than 400 of the most significant changes and includes interpretations by the group that enforces the *Code*. The four-color book is loaded with illustrations that clearly identify and explain the changes.

Topic Outline for IAEI Analysis of Changes-2020 NEC (8 hr.)

8:00 am - 10:00 am	Instruction: Chapter 1 - General Requirements Chapter 2 - Wiring and Protection	2 hrs.

Total CE Hours		8 hours

Course Description: The IAEI staff and representatives on the NFPA NEC Code Making Panels have worked together to develop a quality seminar program that will provide information about code changes covering the safe installation and use of electrical products in the 2020 National Electrical Code.

Course Objectives: This course is designed to cover the major changes in the National Electrical Code for the 2020 cycle. This includes the grounding of systems, services, motors, transformers, feeder branch circuits and equipment.

Method of Presentation: Microsoft PowerPoint® Presentations

Method of Evaluation: A Seminar Evaluation form will be distributed to each participant at the end of the seminar (*see Seminar Evaluation form provided*). Each participant will have the opportunity to evaluate the course, Instructor, facilities, and course materials.
